Contactless Infrared Thermometer Directory

To help meet increased demand for medical equipment and PPE due to the COVID-19 pandemic, the Victorian Government has worked with local industry to prepare a series of directories. This directory identifies local companies that supply contactless infrared thermometers.

Disclaimer

Whereas every effort has been made to verify the details in this directory, the Victorian Government accepts no responsibility to guarantee the delivery of products or services by the organisations listed in the directory nor does inclusion in the directory guarantee the placement of orders or contracts. It remains beholden on any user of the directory to conduct normal commercial due diligence.

For inclusion in future editions of this directory please contact medicalPPEsupplies@djpr.vic.gov.au.

Access Health

Company Profile	Products/Services	Description
 <p>C: Hamish Wilson T: 03 9878 1399 E: hamish@accesshealth.com.au A: 11/981 Mountain Highway, Boronia VIC 3155 W: www.accesshealth.com.au</p> <p>Access Health have been supporting hospitals, aged care, and community healthcare across Australia for over 40 years. They specialise in medical consumables and equipment including trolleys, medication carts, furniture, pressure care, rehabilitation, and physiotherapy supplies.</p>	<p>Product Description</p>	<p>The contactless infrared thermometer from Access Health takes temperature accurately and instantly. This product has been purchased in volume by large Australian aged care facilities since the COVID-19 outbreak, and these facilities have re-ordered in volume. The contactless infrared thermometer measures temperature 1-3 cm away from the forehead without contact, greatly reducing the risk of cross contamination. It is specifically designed to read body temperature without interference from the surrounding environment.</p>
	<p>Supply Volume</p>	<p>Units are boxed and named with 40 units per case and 960 units per pallet. 14-day lead time on renewed supply. As much stock as required can be held in line with a forecast stock requirement.</p>
	<p>Supply Chain</p>	<p>Manufactured in China Manufacturer: Shenzhen Urion Technology Co., Ltd.</p>
	<p>Certifications</p>	<p>TGA - ARTG: 333301</p>
	<p>Warranty</p>	<p>12 months</p>

Air-Met Scientific

Company Profile	Products/Services	Description
 <p> C: Ivy Thong, Marketing Manager T: 03 8878 3331 E: ivy.thong@airmet.com.au A: 7-11 Ceylon Street, Nunawading VIC 3131 W: www.airmet.com.au </p> <p>Air-Met is Australia's market leader in the supply, service, rental and engineering of cost-effective and reliable workplace OHS and environmental monitoring solutions.</p>	Product Description	Air-Met's Non-Contact Infrared Thermometer has been designed to measure forehead temperature of infants and adults without any contact. The IR technology allows temporal artery temperature to be taken at a distance of about 3cm – 5cm away from the forehead. This no-contact method of temperature taking is precise, instantaneous and accurate. Features include an audible alarm if the temperature exceeds 38°C, the ability to store the last 32 temperature measurements and the ability to display temperatures in either Celsius or Fahrenheit.
	Supply Volume	Bulk order of units can be delivered in 2-4 weeks. Units can be supplied individually.
	Supply Chain	Manufactured in China Manufacturer: Jinxinbao Electronics
	Certifications	TGA - ARTG: 315781 CE
	Warranty	12 months

Alpha First Aid
