

## Appendix 12: AusVaxSafety- Post vaccine survey

After receiving a COVID-19 vaccine, people will be sent a survey that can be used to report any side effects they have experienced. This survey is part of the national safety monitoring of COVID-19 vaccines.

Depending on the survey response, the Victorian Department of Health may follow-up with the patient.

For advice or queries, please call the Victorian Coronavirus Hotline 1800 675 398

Victoria participates in national safety monitoring of COVID-19 vaccines through AusVaxSafety.
